**EAST ASIA (continued)**

**China:**

**Nuclear Test**

— The Chinese have never managed to conduct more than two underground nuclear tests in one year. *They must conduct this test by early June to stay on-track for completion of the five tests they have scheduled by the fall of 1996, by which time a Comprehensive Test Ban Treaty might be concluded.*

— *This test may include warhead testing for a new ICBM and a cruise missile and may involve safety upgrades to existing systems.*
